

ESET NOD32 Antivirus 4

Fast, effective antivirus and antispyware for your home.

ESET NOD32 Antivirus protects you from malicious software and internet attacks without slowing you down.

Antivirus – Antispyware

ESET NOD32 Antivirus 4

FACTS

- Fact:** Surfing the web and using email are a part of daily life.

- Fact:** Criminals capitalise on this to their advantage, flooding the internet with over 100,000 new attacks every day, in effort to steal your identity or turn your computer into a 'zombie' to launch email spam and other internet crimes.

- Fact:** Over 150 million users worldwide trust ESET to defend themselves from these attacks.

ESET NOD32 Antivirus is the most effective protection you can find to combat today's huge volumes of internet and email threats. It provides comprehensive antivirus and antispysware protection without affecting your computer's performance.

ESET NOD32 is one of the fastest antivirus solutions, so fast you won't even notice it running. It's both incredibly easy to use yet simple to tailor to your specific needs.

Using our advanced ThreatSense technology, ESET NOD32 proactively protects you from new attacks during the critical first hours when other vendors' products are not even aware the attack exists. ESET NOD32 detects and disables both known and unknown viruses, trojans, worms, adware, spyware, rootkits and other internet threats.

KEY BENEFITS

Built for speed	ESET NOD32 Antivirus is lightning fast, so fast you won't notice it's there. Even disk intensive operations like performing a 'full disk scan' run smoothly in the background while you work and play.
Finds malware other AV companies missed	Typically, when a new copy of NOD32 Antivirus replaces another antivirus product on a home computer, the average user finds viruses or malware present on the machine that were undetected by their previous antivirus product.
Easy on your system resources	ESET NOD32 Antivirus is 'lean and mean' using just 44MB of memory, a fraction of what other products consume. Because it's fast and light, upgrading your existing internet security to ESET NOD32 can literally be like buying a new computer. The new automatic energy sipping battery mode lets you work and play longer.
Easy on you	ESET NOD32 is easier to use than ever before. From its compact and intuitive user interface to its minimal user alerts, you'll be up and running in a snap.
Protection from the unknown	Our award winning Threatsense technology uses multiple layers of threat detection to deliver the most effective protection possible against attacks. Threatsense is smart; it raises far fewer annoying 'false alarms' than any other products that use heuristics.

SYSTEM REQUIREMENTS:

Processors supported:

Intel or AMD x86 & x64

Operating Systems:

- Microsoft Windows 7 (32 and 64-bit editions)
- Microsoft Windows Vista (32 and 64-bit editions)
- Microsoft Windows XP (32 and 64-bit editions)
- Microsoft Windows 2000
- Microsoft Windows NT 4*

Memory:

44 MB

Disk Space (download):

28 MB

Disk Space (installation):

35 MB

*NOTE: Available with version 4.2 or later. Features not supported in NT are self defence, remote media access control, SysInspector, SysRescue and enhanced portable PC support.
